OFFICE of the GOVERNOR

Proclamation

WHEREAS; every Wisconsinite should be able to trust that the water from their tap is clean, safe, and free of contaminants, regardless of their ZIP code; and

WHEREAS; despite ongoing efforts to continue improving water quality in Wisconsin, including investments to replace private wells and lead service lines, improve testing and remediation, and prevent contamination, safe and clean drinking water is not always a reality for many Wisconsinites; and

WHEREAS; during 2026 the Year of the Neighbor and beyond, cleaning up Wisconsin's water is a key part of the state's work to keep kids, families, and communities across Wisconsin healthy and safe; and

WHEREAS; while strides have been made to secure critical funding and enforce new, stronger drinking water standards for PFAS, lead, and other contaminants statewide, more work remains to ensure the health and safety of Wisconsin kids, families, and communities, including continuing to fund restoration projects, keeping science at the forefront of research and policymaking, and working together at all levels of government to address issues of water contamination; and
